

PRICE LIST EU- CLIENTS

To dynamize the water, 3 successive steps are essential:

- **Filtration (Biofilter)**
- **Restructuration (Biodynamizer)**
- **Energization of water (Biodynamizer)**

The tap water in your home will thus turn into **dynamized water, comparable to mountain water!**

As a first step, it is therefore important to remove any pollutants that tap water may still contain. To do this, we offer the **Biofilter®** which applies a new technology of **triple filtration** including a pre-filter and an activated carbon filtration compressed in a hollow fiber which retains pollutants up to a \emptyset of 5 microns and which incorporates ionized silver. The filter cartridge should be replaced every **150 m³ (150,000 L) & max after 1 year of use**. The Biofilter is **SGS certified**.

Then, in order to regenerate the water and make it comparable to **mountain water**, it should be **dynamized** thanks to the **Biodynamizer®** which reproduces the natural water cycle in an accelerated manner by copying the movements of the water flowing freely in nature since the dawn of time. This technology is 100% natural (it combines thousands of vortices with magnetic fields and natural mineral frequencies). The Biodynamizer operates without electricity, maintenance and consumables and can be easily moved when moving..

If the **hardness of the tap water exceeds 40 ° f** (French degrees) then we recommend an additional limestone treatment device, the **Biolimescaler®**. The Biolimescaler is **guaranteed for life**.

PRICELIST EU (EUROPEAN UNION) – 2022

Recommended price list* (prices can be changed at any time)	Purchase price excl. Taxes (VAT, Customs)	Transport EU excl. Taxes (VAT, Customs)
Biodynamizer® : dynamizer (no maintenance, no consumables)	2.800 €	55 €
Biofilter® : filter (Inox housing + cartridge 150 m ³ included)	480 €	35 €
Biolimescaler* : additional treatment against limestone ; optional	680 €	0 €
Additional replacement cartridge for the Biofilter ; capacity 150 m ³	190 €	25 €

* Prices may vary by + 10% on export depending on the country of delivery of the devices
