BIOFILTER: A HIGH-PERFORMANCE TRIPLE FILTRATION

Before **dynamizing** city water, it is important to first remove the remaining pollutants. To do this, we offer **high-performance triple filtration** using activated carbon compressed in a fiber that incorporates ionized silver.

The Biofilter, which integrates the **Bio Pro** filtration cartridge, is probably the most efficient and effective large capacity* activated carbon filter on the market.

*filtration cartridge valid +/- 1 year (or max 150m³) for a family of +/- 5.

The Biofilter will remove a large part of the pollutants that would still be present in city water (**i.e. chlorine, bad tastes and odours, pipe corrosion, bacteria, organic pesticides, the PFAS, heavy metals...**) while preserving its trace elements and minerals that are good for our **health**.

The minerals contained in water (mainly calcium and magnesium) contribute between 20% and 50% to the Recommended Nutritional Intake of calcium and magnesium for one person (depending on the mineral content of the water and the age of the people concerned). These minerals have a beneficial role in particular for hypertension, cardiovascular accidents, cancers, fatigue, diabetes, coronary insufficiencies, osteoporosis...

"Water is not necessary for life, it is life" - A. de St Exupéry

THE BIODYNAMIZER DYNAMIZES WATER BY APPLYING THE FOLLOWING 3 PRINCIPLES OF BIOMIMICRY:

**THE VORTICES
(OR WHIRLPOOLS)**

THE MAGNETISM

**NATURAL MINERAL
FREQUENCIES**

FORMS

**Centripetal
vortices**
(Rivers)

Accelerations
(Narrowings)

**Longitudinal
vortices**
(Meanders)

**Columnar
vortex**
(Waterspout)

FREQUENCIES

**Electromagnetic
fields**
(Sun > Light)

Noble metals
(Gold / Copper / Silver)

**Magnetic
fields**
(Earth > Magnetosphere)

Minerals
(Natural frequencies)
Volcanic lava rock /
Carrara marble /
informed ceramics

"Observe, understand and copy nature" - Viktor Schauberger

THE ADVANTAGES OF BIODYNAMIZED* WATER

* see analyses and observations at www.biodynamizer.com

A global solution
for the whole
house

Filtered
tap water

Ecological
limescale
treatment

Water containing
more photonic
energy

More hydrating and
less oxidized water

A rounder
taste

Restructured
water

An ecological and
economical solution

Comparative types of water		Chlorine	Pollutants	Minerals	Sodium	Limescale treatment	Heavy metals	Structure (molecules)	Energy (photons)
