# BIOFILTER: A HIGH-PERFORMANCE TRIPLE FILTRATION

Before **dynamizing** city water, it is important to first remove the remaining pollutants. To do this, we offer **high-performance triple filtration** using activated carbon compressed in a fiber that incorporates ionized silver.

The Biofilter, which integrates the **Bio Pro** filtration cartridge, is probably the most efficient and effective large capacity* activated carbon filter on the market.

*filtration cartridge valid +/- 1 year (or max 150m³) for a family of +/- 5.

**The Biofilter** will remove a large part of the pollutants that would still be present in city water (**i.e. chlorine, bad tastes and odours, pipe corrosion, bacteria, organic pesticides, the PFAS, heavy metals...**) while preserving its trace elements and minerals that are good for our **health**.

The minerals contained in water (mainly calcium and magnesium) contribute between 3% (for Mg) and 24% (for Ca) to the Recommended Nutritional Intake for one person (depending on the mineral content of the water and the age of the person concerned). These minerals have a beneficial role in particular for hypertension, cardiovascular accidents, cancers, fatigue, diabetes, coronary insufficiencies, osteoporosis...

*"Water is not necessary for life, it is life"* - A. de St Exupéry

# THE BIODYNAMIZER DYNAMIZES WATER BY APPLYING THE FOLLOWING PRINCIPLES OF BIOMIMICRY:

## THE MOVEMENTS

**Centripetal vortices**
(Rivers)

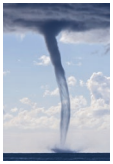

**Accelerations**
(Narrowings)

**Longitudinal vortices**
(Meanders)

**Columnar vortex**
(Waterspout)

## FREQUENCIES

**Minerals**
(Mineral frequencies)

**Magnetic fields**
(Earth = Magnetosphere)

**Universal Energy**
(The Ohmère bottle)

*"Observe, understand and copy nature"* - V. Schauberger

# THE ADVANTAGES OF BIODYNAMIZED WATER

see analyses and observations at www.biodynamizer.com

A global solution for the whole house

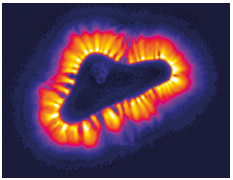

Filtered and dynamized tap water

A rounder taste

Water containing more energy

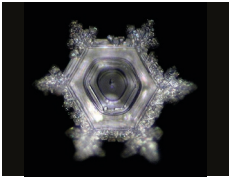

Ecological limescale treatment

An economical solution

An antioxidant water
More oxygenated blood

Restructured water

R.E.: Christophe Carrette, sentier Muraes 10, B- 1440 Braine-le-Château

| Comparative table Water types | Chlorine | Pollutants | Minerals | Salt | Limescale treatment | Plastic | Structure | Energy |
